

1 I AM PASSIONATE ABOUT MY WORK

Who wants to hire someone who is only there for the paycheck? From concept to creation, every design project that I have ever managed has been created with determination, dedication and discipline. My goal is to ensure top quality results.

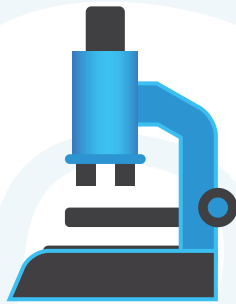

3 I LIVE, EAT AND BREATHE DESIGN

Spending four years studying design, and spending the last six years working countless hours and willing to pull all-nighters striving for perfection in every project, it would be an absolute shame if I didn't love design.

5 I AM EXTREMELY DETAIL ORIENTED

From large-format print documents to business cards or a complicated website, making my work "pixel perfect" is an integral part of my design process. Some might call it OCD, but I consider it an imperative.

7 I AM GREAT AT MULTITASKING

I honestly love having ten things to do at once and I work well under pressure. I believe that switching gears is beneficial for a fresh mind and avoids designer block. The only thing that slows me down is when my laptop can't keep up with me.

9 I AM A GREAT COMMUNICATOR

I am committed to successful two-way communication. Whether I'm perfecting the content in a proposal, teaching a coworker a task, or giving my professional input, I strive to be as clear and concise as possible.

2 I COME AS A PACKAGE DEAL

I wear many hats... web designer, graphic designer, data analyst, email marketer, social media strategist, pre-press designer and overall marketing guru. You may not always need to utilize all of my services, however, I've learned it's better to have them and not need them than to need them and not have them.

4 I AM A PEOPLE PERSON

While I may have great technical skills, I believe that it is important to demonstrate effective emotional consistency in order to gain trust and respect from your peers. Whether you want to brainstorm on a project or just tell me about your day, I'm always a great conversationalist.

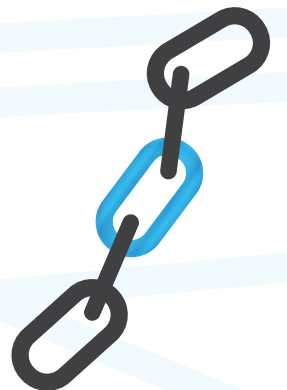

6 I TAKE CRITICISM WELL

I'm sure you're silently critiquing the layout and content of this document. It's alright, tell me what you think. I value constructive criticism. Identifying my weaknesses only enables me to better maintain relationships and be more successful in everything I do.

8 I AM RELIABLE & DEPENDABLE

When things get hectic, you need strong team members you can depend on to get the job done. I want to contribute in every way possible, especially concerning design and marketing strategies. As a result of careful prioritizing, planning and time management, I consistently meet my deadlines and commitments.

10 I ALWAYS FIND A SOLUTION

There is always a resolution for everything. If I don't know it, I will learn it. Having access to countless resources at my finger tips, I leap at the opportunity to improve my skills and advance my knowledge whenever possible.
